PROFESSIONAL SUMMARY

Passionate Full-Stack & App Developer with 2+ years of experience building scalable web applications, RESTful APIs, and cross-platform mobile apps. Proven track record of delivering production-ready solutions across 10+ projects spanning corporate, healthcare, e-commerce, and interior design domains. Partner of choice for startups and businesses looking to turn ideas into polished digital products - combining strong engineering fundamentals with a keen eye for user experience.

WORK EXPERIENCE

Full-Stack Developer, Co-founder & Managing Director | Fivizo Tech And Marketing Pvt. Ltd.

2026 – Present | Full-time

- Lead end-to-end development of corporate web platforms using Next.js, Laravel, and PostgreSQL.
- Architect CI/CD pipelines with GitHub Actions and Docker, reducing deployment time by 60%.
- Oversee technical strategy and client delivery across multiple concurrent projects.
- Implemented advanced security hardening including JWT, OAuth 2.0, and reCAPTCHA integration.

Digital Marketing Executive | Chautari Digitals Pvt. Ltd.

2025 | Full-time

- Resolved complex infrastructure issues and implemented state-of-the-art authentication flows.
- Collaborated with development teams to improve platform performance and security posture.

Backend Developer | Self-Employed

2024 | Freelance

- Designed and built scalable REST APIs and microservices for multiple client projects.
- Managed database architecture with PostgreSQL and MySQL; integrated third-party APIs and payment gateways.

Junior Web Developer | Self-Employed

2023 – 2024 | Freelance

- Developed responsive, pixel-perfect frontends using React, Bootstrap, and TailwindCSS.
- Built and maintained Laravel-based backends for business and consultancy clients.
